

FUTURA

climbing
LA SPORTIVA®

target

No-Edge concept: the perfect choice for climbers who want to “feel” the rock surface. The low profile sole has the aim of reducing the distance between foot and rock surface thus enhancing foot sensitivity.

plus

- + This slipper provides the maximum sensitivity allowing the foot to function naturally guaranteeing complete freedom of movement
- + The No-Edge concept allows the climber to approach the rock in a totally new and more natural way
- + The Fast Lacing System guarantees a snug fit. Fast and precise
- + A new climbing concept: more instinctive, fluid and natural

tech info

upper	suede leather combined with Lorica slip lasted
colour	Blue
lining	none
fit	medium
midsole	Laspoflex 1,1 combined to P3 System
sole	Vibram® XSGrip2 3 mm
patent	Fast Lacing System and P3 System (Permanent Power Platform)
size	32 - 46 (half sizes)
weight	450 g pair

Blue
art. 10E

1 *Fast Lacing System*: a patented lacing system that ensures a perfect fit

2 *Lightweight breathable mini gaiter*

3 *No-Edge Concept*: the low profile sole has the aim of reducing the distance between foot and rock surface thus enhancing foot sensitivity
