

XPLORER NEW

All synthetic edging machine for approaches, speed climbing, slab paddling, canyoneering and moving fast in the mountains

Torsion control TPU shank for proper flex and heel stability

High frequency molded TPU lacing harness with Nylon® cord reinforcement

Overwrap technology covers the midsole with the rand to eliminate rolling on edges

To-the-toe lacing system for a precise fit

Softer density injection EVA cushion under the heel

Lightweight compressed EVA plate under the midsole for protection from roots and rocks

Super sticky Vibram® Idro Grip approach rubber for grip in dry and wet conditions

#17G GREY/RED & #17H WOMEN'S RED

- ➔ Toe box Overwrap technology rand construction controls foot creep when edging and smearing
- ➔ Dual density EVA midsole is soft under the heel for all day comfort and end of day trudging
- ➔ Sticky Vibram® Idro-Grip rubber is amazing on the rock
- ➔ Highly compressed EVA RockGuard in the forefoot
